

SUSTAINABILITY REPORT

Our History

In the early 1971s, we started to serve with a 36-room hotel in the place where the Acanthus Cennet Barut Collection Hotel is located today, and today we are a big family with 3500 rooms, over 10000 beds and more than 3000 colleagues.

Barut Hotels Policy

As Barut Hotels, our fundamental principle is to comply with national and international legal requirements and standards in all our product and service processes, and to continuously improve our operations. Our main goal is to offer top-level, guest-oriented service at our hotels and provide a unique service experience.

Employee Safety and Investment in People

Employee satisfaction and well-being are of great importance to our hotels. Therefore, continuous improvements are made in processes to minimize all risks that may threaten the health and safety of employees and business partners. Training of employees, protection of human rights, and ensuring equal rights for everyone without any discrimination form the foundation of our company policy.

Guest Satisfaction and Safety

Since 1971, Barut Hotels has adopted high guest satisfaction as its top priority and has been continuously improving as a hotel chain. All kinds of suggestions, complaints, and feedback from guests are carefully evaluated, and the resolution process is carried out transparently. Every piece of feedback is considered an opportunity for improvement and contributes to enhancing service quality.

Environmental Responsibility and Sustainability

We act with a responsible tourism approach to reduce our negative impact on the environment and protect natural resources. Reducing the carbon footprint, minimizing and recycling waste, and protecting nature through eco-friendly methods are among our key sustainability goals. Promoting and preserving cultural heritage, cooperating with local communities, and combating climate change are integral parts of these goals.

Energy Management, Savings, and Efficiency

Increasing energy efficiency is a necessity of our sustainable service approach. In this regard, efficient energy use is targeted across all services, products, and supply chains, and green energy solutions are preferred. Thanks to technological infrastructure, energy consumption is monitored, and both savings and efficiency are achieved.

Water Efficiency

We place great importance on the sustainability of water resources. The amount of water used in our hotels is carefully monitored, systems that prevent unnecessary use of water are implemented, and technological solutions that improve efficiency are put into operation. Water-saving equipment and practices are utilized to minimize water consumption.

Food Safety and Hygiene

Food safety is one of the core principles of our service policy. At all our hotels, international safety and hygiene standards are strictly applied at every stage of the food chain. These standards are communicated to all employees and stakeholders to ensure the highest level of hygiene is maintained through a culture of continuous improvement.

Investors and Business Partners

Barut Hotels prioritizes working with business partners who share similar values and vision. All business relationships are governed by principles of legal compliance, fairness, equality, and efficiency. During partnership processes, the needs of all parties are considered, and mutual satisfaction and benefit are adopted as fundamental goals.

Support for the Local Economy and Sustainable Procurement Practices

Our hotels are committed to contributing to the local economies of the regions in which they operate. Accordingly, preference is given to purchasing products and services from local suppliers, and local employment is encouraged. Sustainable procurement processes prioritize environmentally friendly products that consume less energy and water and produce less waste.

Child Protection

We consider the protection of children a social responsibility. Ensuring child welfare, protecting them from all forms of abuse and harmful influence, and taking preventive measures, as well as cooperating with organizations working in this field, are among our corporate priorities.

Information and Data Security

Information and data security are integral parts of Barut Hotels' corporate responsibility. The confidentiality, integrity, and accessibility of all information assets are protected, and measures are taken against unauthorized access. Risks related to data security are regularly analyzed, and necessary protection measures are implemented.

Accessibility

We continuously improve physical, digital, and communicative accessibility conditions so that all guests can benefit from our services equally. Accessible rooms, ramps, guidance systems, and service content are provided in line with the needs of individuals with disabilities, ensuring their comfort and independence.

Local Awareness

Barut Hotels respects the cultural values and traditions of the regions in which it operates. To promote and preserve local culture, guests are encouraged to engage with local crafts, culinary traditions, and ways of life. In doing so, interaction with local communities is fostered, and the sustainability of cultural heritage is supported.

Vision

We aim to be a global brand that keeps guest and employee satisfaction at the highest level and stands out with its service quality and reliability in the sector with the strength and knowledge we receive from our deep-rooted history. We work for sustainable tourism with the products we prefer and the approaches we exhibit.

Mission

Barut Hotels means adopting a service approach focused on guest satisfaction. Our group, which is the work of a visionary perspective, has been serving Turkish and World tourism in the light of the philosophy of “Happy employee - happy guest” since its establishment in 1971. With our stable, innovative, fair and reputable stance, we will continue to develop projects sensitive to the environment, people, art and nature, and we will continue to serve our country with our new investments.

ENERGY MANAGEMENT AND CLIMATE ACTION

GRI 302 (Energy) Compliance

We report our energy consumption and efficiency in detail.

GRI 305 (Emissions) Tracking

We measure our greenhouse gas emissions and develop reduction strategies.

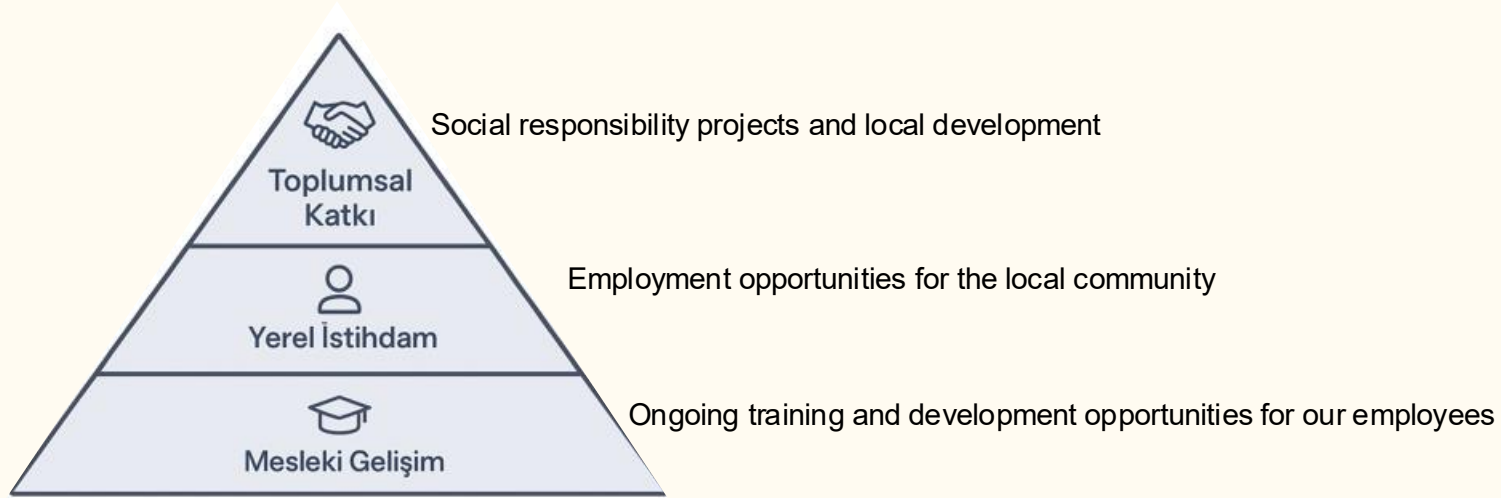

SDG 7 and SDG 13 Integration

We contribute to the goals of Affordable and Clean Energy and Climate Action.

At Lara Barut Collection, we are focusing on renewable energy sources and developing projects that increase energy efficiency. These steps towards mitigating climate change aim to minimize our impact on the environment.

SOCIAL CONTRIBUTION AND SOCIAL RESPONSIBILITY

Within the framework of GRI 401 (Employment) and GRI 413 (Community Engagement) standards, we address our local employment policies and contributions to society. We work in line with SDG 1 “No Poverty,” SDG 8 “Decent Work and Economic Growth,” and SDG 10 “Reduced Inequalities.”

We support local employment, invest in the development of our employees, and increase our social contribution through social responsibility projects.

HEALTH, SAFETY, AND EDUCATION

100%

Workplace Safety Training

All our employees receive comprehensive workplace safety training.

24

Annual Training Hours

Minimum annual professional development hours for each employee

0

Workplace Accident Target

We provide data on our employees' health, safety, and training programs in line with GRI 403 (Occupational Health and Safety) and GRI 404 (Education and Training) standards as part of our continuous improvement efforts toward zero workplace accidents. We work in line with SDG 3 “Good Health and Well-being” and SDG 4 “Quality Education”.

We strive to provide a healthy and safe working environment and contribute to the education of our employees by undertaking various initiatives, ensuring the highest standards of occupational health and safety.

EMPLOYEE RIGHTS

Equal Opportunity

Principle The principle of providing equal opportunities to individuals in recruitment processes is applied. It is essential that there is no discrimination based on race, religion, language, or gender, and that human rights are respected.

Physical and Emotional Well-being

All measures are taken to protect employees' physical, mental, and emotional well-being within the company. Forced labor and child labor are not permitted.

Communication Channels

Employees can reach senior management directly through the established “Band-Up” platform. We also encourage our employees to share their creative ideas regarding facility operations and practices.

OUR ENERGY FRIENDLY INFRASTRUCTURE

- *There is a smart sensor system in the rooms.
- *There is a switch on the balcony doors that turns off the air conditioner when the door is opened.
- *90% of the lighting throughout the hotel is led lighting.
- *Sensor lighting is used in public WCs and corridors.
- *Most of the outdoor lighting is timer dependent.
- *Energy-saving comfort heat glasses are used in rooms and general areas.
- *There are frequency controlled hydrophores and air handling units.
- *Energy saving comfort heat glasses are used in rooms and general areas.
- *There are frequency controlled hydrophores and air handling units.
- * Energy efficient (A+/A++++/A+++/A++++) sweat

OUR ENVIRONMENTALLY FRIENDLY INFRASTRUCTURE

- *Personnel entry and exit times are tracked with the attendance system instead of sign-in sheets.
- *Employee satisfaction surveys are conducted electronically.
- *Payroll notifications are made to the personnel by e-mail.
- *Wastes are collected, stored and sent to licensed companies in accordance with the regulations.

USE OF ELECTRICITY GENERATED FROM RENEWABLE SOURCES

As of October 1, 2022, 100% of the electricity used is generated from renewable sources.

As of January 2025, energy supply from the solar power plant has commenced.

ELECTRIC CAR CHARGING STATION

The buggies and hotel vehicles are electric. There are four fast charging stations for electric vehicles in the guest parking lot.

HEATED POOLS

Heat pumps are used for heating heated pools. Heat pumps use electricity generated from renewable sources (HES, RES, GES).

SOLAR PANELS

There are 110 solar panels used for water heating.

WATER SAVING

*Sensor faucets, sensor urinals, timed foot washing units on the beach, knee-strike timed sink faucets are used in production areas.

*Water saving is ensured by adjusting the flow rate in bathroom faucets, sink faucets and toilet bowl reservoirs.

*Flow rates of shower and faucet mixers are measured regularly.

ENVIRONMENTAL EDUCATION ACTIVITIES CARRIED OUT IN 2024

Sequence no	Name of the activity	Date	Short Assesment of the activity (did many people participate, what was the outcome, etc).
1	Tree Sapling Planting	21 March 2024 19 May 2024 5 June 2024 30 August 2024	121 pine saplings were planted in the Aksu region on behalf of our employees during the March 21, 2024 Forest Week activities. On May 19, Youth and Sports Day, 119 pine saplings were planted in the Aksu region on behalf of our employees. On June 5, 2024, 255 pine saplings were planted in the Aksu region on behalf of our employees during World Environment Day activities. 230 pine saplings were planted in the Aksu region on behalf of our employees during the August 30 Victory Day events. Translated with DeepL.com (free version)
2	Electric Charging Station	Whole Year	Electric vehicles are charged with the "Electric Charging Station" in the parking lot of the facility.
3	Sending leftover food from the buffet to the shelter	Whole Year	We signed a protocol with the Kurşunlu Street Animal Protection Association (KUHAYDER) in April 2022. We ensure that leftover pasta, rice and meat dishes are sent to the kiosk.
4	Protection of Caretta Caretta and Sand Lilies	Whole Year / 2024 Summer Season	We protect the sand lilies, we make applications that ensure their development and spread. This year, 9 caretta caretta nests were protected with cages. It has been useful.
5	Re-utilization of out-of-use products by eating them.	Whole Year	The products of the Activities and Entertainment department, which had reached the end of their useful life, were evaluated and renewed.
6	Renewable Energy Use	Whole Year	By October 1, 2023, 100% electricity generated from renewable sources will be used.
7	Environment, Energy, Water, Sustainability and Waste Management Training	2024 February	It was aimed to raise awareness and awareness of our personnel, and it was successful.

ENVIRONMENTAL EDUCATION ACTIVITIES CARRIED OUT IN 2024

Sequence no	Name of the activity	Date	Short Assesment of the activity (did many people particpate, what was the outcome, etc).
8	Flask Usage	2024 February	In order to reduce the amount of plastic from the use of bottled water, canteens are sold in the hotel (without any profit motive). The flasks can be used to supply water from 13 water dispensers located in the hotel.
9	Forest Week Event	2024 March	During the Forestry Week on March 21-26, 5,000 seed balls were planted in hard-to-reach areas with unmanned aerial vehicles ecoDrones.

19	Mini Club World Animal Protection Day Event	4 October 2024	An event was organized on October 4, World Animal Protection Day, in order to raise awareness and raise awareness among our Mini Club guests.
20	Plant Nameplates	October 2024	Detailed information about the trees and some shrub plants in the hotel can be accessed instantly with QR name tags.
21	Tema Foundation Donation	10 November 2024	100 saplings were donated to Erzurum Taşagıl Forest.

We owe every breath we take to nature.

As Barut Hotels, we are aware of this and continue to raise the level of awareness. We are proud to be an important stakeholder in sustainable and environmentally friendly tourism. With We Care All, the environmental policy of Barut Hotels, we make new contributions to the understanding of sensitive hotel management every day.

Do We Care All?

We Care All is the environmental awareness project developed by Barut Hotels in 2019. Aiming to reduce the use of environmentally harmful substances as much as possible, our Group takes utmost care to use all natural resources more efficiently and carefully.

What does We Care activities cover?

It includes many approaches such as protection of stray animals, protection of endangered plant species, protection of the spawning areas of Caretta Carettas that lay eggs on hotel beaches, plastic-free, less use of printed documents in rooms, beach cleaning activities, cat houses, preparation of nature books, creation of mobile free zone areas in hotels, acceleration of technological and infrastructure works required to save energy, raising awareness of the staff about the environment, and ensuring the use of recyclable products as much as possible. The project continues to be developed.

#baruthotelswecareall

What is We Care All?

Inception and Development

Barut Hotels launched its environmental awareness movement in 2019 under the name We Care. During the pandemic period, it was renamed We Care All in 2021 in line with changing and evolving needs and expectations.

Scope and Areas

This movement emphasizes sustainable practices in many areas such as education, employee rights, environmental activities, support for cultural heritage, waste reduction, recycling, support for agriculture, purchasing from local sources, renewable energy investments, local employment and participation in sporting events.

Mission and Vision

Since its establishment in 1971, Barut Hotels has adopted the mission of protecting and developing the love of nature and humanity. With the We Care All movement, it aims to fulfill its responsibilities towards future generations with sustainable practices today.

Barut and Sustainability

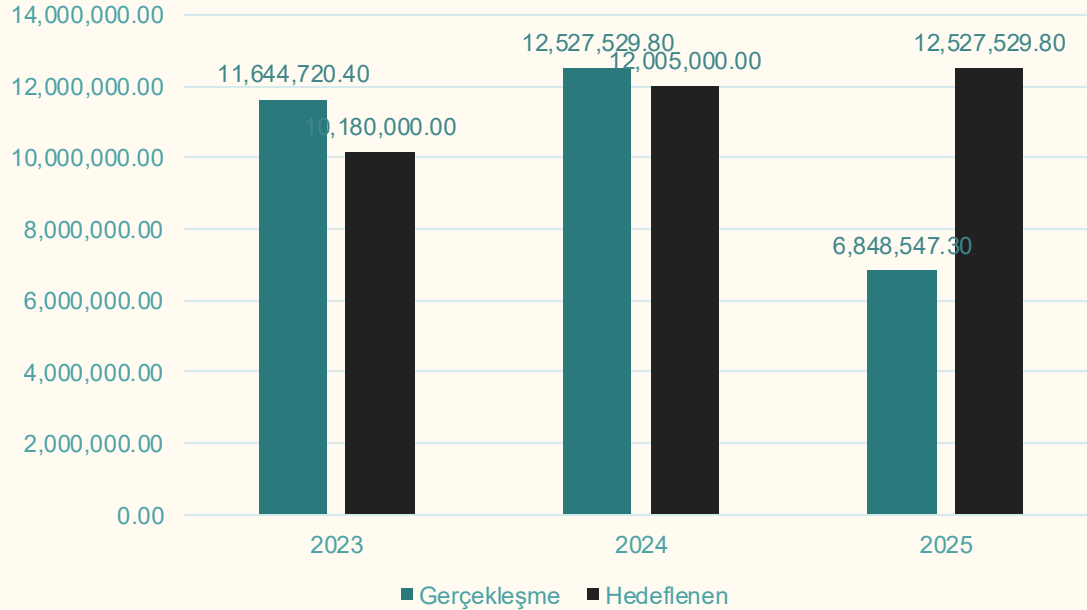

Based on our motto "We show our respect for nature and protect it every time we touch it", we realize projects that integrate sustainability into all our processes. We carry out efforts to turn the concept of sustainability into a corporate culture.

WATER DISPENSERS AND POTABLE QUALITY TAP WATER

The amount of plastic waste has been reduced with 13 self-treatment dispensers, 1 garden dispenser (Push Top) and potable quality tap water that we offer for use in staff and guest areas.

AUTOMATION IRRIGATION SYSTEM

Automation is used in the garden irrigation system.

SMART WEIGHING SYSTEM

As of April 2024, a smart weighing system was put into use. It is aimed to measure, analyze and reduce food waste.

BICYCLE USE

The number of bicycles available for use in the Bayou Villas area increased from 18 in 2024 to 28 in 2025. They are both an environmentally friendly means of transportation and allow guests to explore the hotel.

Cycling also provides health and fitness by providing physical activity.

Using bicycles in our facility brings both fun and a sustainable accommodation experience.

COOPERATION WITH WOMEN'S COOPERATIVE

To make the vacation experience of younger guests more fun and memorable,

2024 The caretta mascots, which we started to present to our guests aged 0-6 as of August, are produced by the women of the Oyalı Eller Women's Initiative production and cooperative.

PLANT NAMES

It is aimed to provide our guests with instant access to detailed information about the plants with QR name tags for trees and some shrub plants located inside the hotel.

Guests or plant lovers can scan the code to find out the type and characteristics of the plant.

MATARA

Flasks are sold in the hotel in order to reduce the amount of plastic formed by the use of water in plastic bottles.

The flasks can be used to supply water from 13 water dispensers in the hotel.

MUSEUMS WEEK

On the occasion of May 10-16 Museum Week, Our group was informed about the history and current situation of Side at the event where Prof. Dr. Feriřtah Alanyalı, Head of Excavations, and all our employees were invited to the Side excavations, of which we are the main sponsor.

CARE ALL

WOMEN'S COOPERATIVE WORKSHOP

“2025 DECLARED INTERNATIONAL YEAR OF COOPERATIVES

Cooperative enterprises play an active role in many global issues such as climate change, poverty alleviation, food security, and sustainable development, in line with their principles and values. For this reason, in line with the Sustainable Development Goals, the United Nations has declared 2025 as the International Year of Cooperatives. The celebrations and events of the 2025 International Year of Cooperatives (IYC) aim to draw attention to cooperative enterprises around the world and to achieve comprehensive economic and social development through cooperatives.

The declaration of 2025 as the International Year of Cooperatives is considered an unmissable opportunity in our country to pass on the century-old culture of cooperatives to future generations and to raise awareness about mutual aid, solidarity, and democracy-based cooperative structures.

In this context, we hope that the various events and organizations we will carry out with our stakeholders regarding the 2025 International Year of Cooperatives will contribute to the development of cooperatives in our province."

In collaboration with the Antalya Provincial Directorate of Agriculture and Forestry and Lara Barut Collection, we held the “Women's Cooperatives Workshop” program at our hotel on May 23, 2025.

Workshop Objectives: *To help women's cooperatives understand the tourism sector and the needs of hotels.*To provide knowledge and skills on effective communication and sales marketing techniques.

WE CARE ALL THE WHOLE COMMITTEE

We Care All committee consists of quality managers, energy managers and central marketing & corporate communication department of all our hotels.

Barut Yönetim Hizmetleri A.Ş. was established with the approval of the Board of Directors. Its purpose is to standardize and generalize the work of sustainability and quality managers within the group..

CARBON FOOTPRINT TRAINING

With the participation of all quality managers on July 17-18, 2024, the Carbon Footprint Green Deal Training aims to increase the awareness of individuals and communities on climate change and to adopt a sustainable lifestyle.

The training teaches what carbon footprint is, how it is calculated and how it can be reduced. In this way, energy consumption, transportation habits and waste management are reviewed to reduce their environmental impact.

Ağustos 2024

THANK YOU CERTIFICATES

On May 3, 2024, our facility contributed to the fair held at Sabiha Gökçen Kindergarten, an Eco School.

EVENTS

On June 5, World Environment Day, employees from different departments participated in the environmental cleaning event organized in Kumk y Forest.

EVENTS

On May 22nd, World Biodiversity Day, an activity was organized for 15 students from Ermenek Primary School about sand lilies, Blue Flag and lifeguard activities.

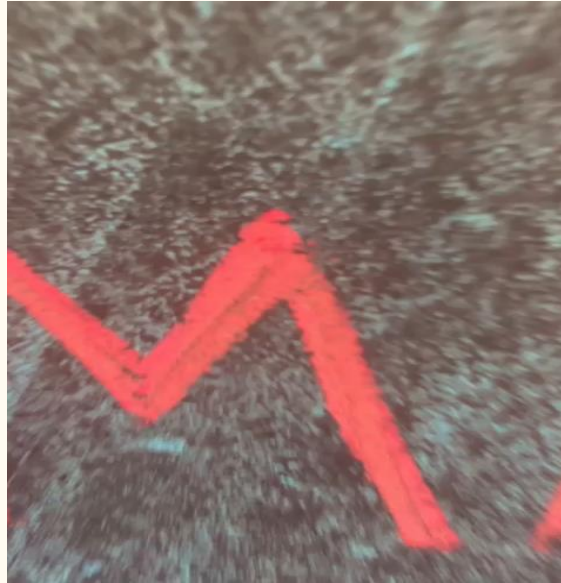

EVENTS

Various activities (nature workshop, waste sorting, rag doll making, etc.) were organized to raise awareness among child guests at the Mini Club.

EVENTS

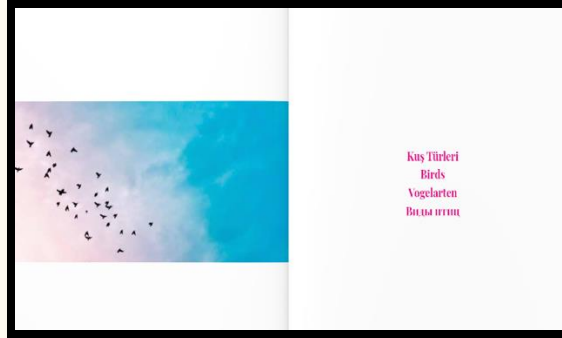

Activities were organized on World Animal Protection Day to raise awareness among child guests at the Mini Club.

NATURE

Here is the link to our booklet describing the plant species, bird species and butterfly species in our hotel in 4 languages with visuals;

<https://baruthotels.com/tr/library/books/the-flora-fauna-lara-barut-collection>

SPICE GARDEN

Spices such as sage, thyme, basil, tarragon and aromatic plants such as lavender, santolina, etc. were planted in the spice garden, and it was aimed to raise awareness by defining their names.

WATER STATION

We set up a water station to meet the water needs of animals and to raise awareness among our employees and guests about their need for water.

BEACH BAG

As of August 2019, the beach bags that we give as a gift to our guests containing plastic raw materials have been removed and beach bags made of linen material have been used instead.

BUKLET MATERIAL

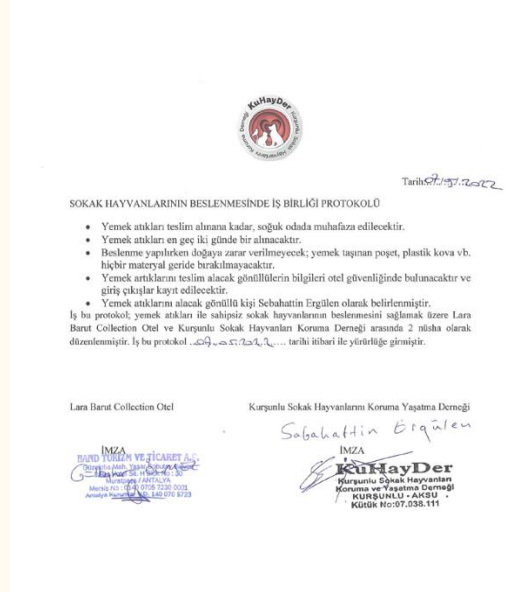

In 2023, boucle materials (shampoo, shower gel, conditioner) used in the rooms were switched from disposable 50 ml packages to 380 ml packages.

In 2024, the use of 5 gr solid soap was switched to 380 ml gel hand wash packaging.

SENDING LEFTOVER FOOD FROM THE BUFFET TO THE ANIMAL SHELTER

We signed a protocol with the Kurşunlu Street Animal Protection Association (KUHAYDER) in April 2022. We send leftover pasta, rice and meat dishes from the buffet.

SAND LILIES

The endemic plant species of sand lilies on our coastline are being protected, and measures are being taken to ensure their growth and spread.

RECYCLING

The dart board, which is used in our Activities and Entertainment department in our hotel, has been used as a new dart board by evaluating the wine corks used in restaurants and bars.

RECYCLING

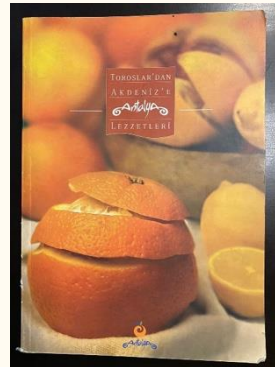

New Year's decorations for the year 2024 have been made by our Activities and Entertainment department in our hotel.

TİRMİS

Tirmis Restaurant, named after Tirmis, a healthy legume variety unique to Antalya, the pearl of the Mediterranean, offers Antalya's special flavors such as hibeş, tahini pumpkin dessert, skewered meatballs, and tahini piyaz, as well as flavors known only to the local people and not yet discovered by the city. All dishes prepared at the restaurant use Antalya's natural flavors, introducing the city's culinary culture to guests from around the world.

In 2024, Tirmis Restaurant hosted 9,428 guests.

CERTIFIED PRODUCT

We have obtained a product certificate with a designation of origin, which certifies that we produce Antalya Piyazı and Antalya Kabak tatlısı on the Tirmis Restaurant menu in accordance with the local recipe.

VEGAN, GLUTEN-FREE & LACTOSE-FREE BUFFET

Zestful Bazaar has a buffet offering vegan, gluten-free, and lactose-free options for all meals.

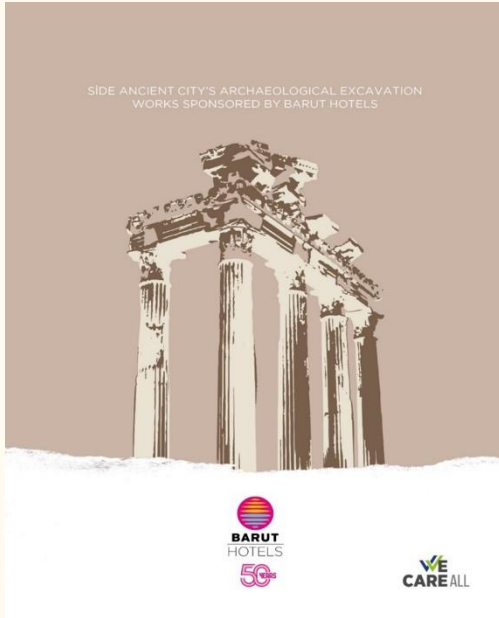

CAT HOUSE

The residents of our cat house, which consists of nearly 60 cats, most of whom require special care, are raised with great love and attention by Mr. Cengiz.

The costs of food and veterinary services are covered by donations from our guests and our hotel.

PROTECTION OF CULTURAL HERITAGE

Barut Hotels continues to sponsor excavations in Antalya-Side.

6TH CONTEMPORARY YOUNG ARTISTS MEETING

At the 6th Contemporary Young Artists Meeting, this year's guest of honor was the painter Feyza Alasya. Art weeks coordinator Hakan Kürklü was accompanied by young artists Arda Selim, Deniz Sevinçli, Emre Acar, Fatih Şimşek, Kardelen Erken, Merve Şenel, Nurdan Likos, Sevilyay Nurten Şahin and Zeynep Abacı.

Bu yıl altıncı kez kapılarını sanatseverlere açan Lara Barut Collection Çağdaş Genç Sanatçılar Buluşması, 25-27 Ekim tarihleri arasında sanatın eşsiz dünyasını otel misafirleriyle buluşturdu. Hakan Kürklü'nün küratörlüğünde ünlü ressam Feyza Alasya'nın onur konuğu olduğu etkinlikte 10 yetenekli genç sanatçı, eserlerini sanatseverlerle paylaştı.

Lara Barut Collection, misafirlerini rahatlık ve lüks yanında, sanatın ve sanatçıların benzersiz dünyasıyla buluşturmaya devam ediyor. Bu yıl gerçekleştirilen bu buluşma, otelin sanatla olan bağına daha da güçlendirirken, genç yeteneklere eşsiz bir platform sunmuş oldu. Otel misafirleri, etkinlik süresince sanatçıların yaratım süreçlerini yakından takip edebilme fırsatını yakaladı.

WOMAN PRODUCER

The lavender collected by the women of Adiyaman region reaches our facility and is transformed into lavender pouches and offered to our guests.
